Experienced software developer with over four years of diverse technology expertise, including two years in software development, two years as a computer science subject matter expert. Proficient in HTML, CSS, React, Next.js, JavaScript, Solidity, Node.js, Express, Firebase, and React Native. Adept at crafting robust solutions and collaborating across all phases of the development lifecycle.

PROFESSIONAL EXPERIENCE

Rariti.Inc, California, USA   Aug 2022 – Present

Software Engineer

- Designed and developed 60% of modern web applications for both desktop and mobile using React, TypeScript, Node.js, Express, Firebase and Next.js.
- Contributed to all phases of the development lifecycle, collaborating with Product Managers, Product Owners, and specialists in back-end development, testing, and analytics.
- Worked with HTML, SCSS, and JavaScript, ensuring seamless integration of frontend components.
- Implemented Micro Frontends to create scalable and modular applications, streamlining development and maintenance.
- Managed the entire project life cycle from inception and planning through execution, monitoring, and successful conclusion.
- Gained proficiency in Solidity and Ethereum Virtual Machine (EVM) internals, enabling the development of secure smart contracts.
- Utilized Ethereum development tools like Open Zeppelin, ethers.js, and Hardhat for enhanced development processes and code quality.
- Collaborated across all stages of the systems development lifecycle, from requirement gathering to production releases. Boosted website performance from 20% to an impressive 78%, demonstrating a remarkable 58% improvement.
- Participated in software field testing to verify in-situ performance of developed projects.
- Led version control efforts using GitHub and other repositories, ensuring organized development.

Chegg Pvt Ltd, India   Aug 2020 - May 2022

Subject Matter Expert

- Demonstrated strong grasp of computer science concepts and principles, including algorithms, data structures, and programming languages, consistently earning exceptional student ratings of 90%.
- Provided mentorship and instruction to computer science students at both undergraduate and graduate levels.

EDUCATION

APJ Abdul Kalam Technological University   2019

Bachelor of Information Technology Engineering

- Achieved top scores in coursework related to software development, database management, networking, and cybersecurity
- Received recognition for outstanding performance in IT-related projects and assignments
- Completed internships or industry projects with reputed organizations, gaining hands-on experience and practical skills in IT implementation

SKILLS & OTHER

Technologies: React.js, React Native, HTML, CSS, Node.js, Next.js, Solidity, Firebase, XML

Methodologies: Scrum, Software Development Life Cycle

CERTIFICATION

Scalar: Unlocking the Power of JavaScript   August 2024

- Successfully completed the "Unlocking the Power of JavaScript" course, demonstrating advanced understanding of JavaScript concepts through 8 practical challenges that showcased strong problem-solving skills and real-world application.

Scalar: Node JS - Master the Fundamentals   August 2024

- Successfully completed the Node.js Certification Course - Master the Fundamentals, covering 58 video tutorials and 10 modules. This comprehensive program enhanced my expertise in Node.js and Express equipping me with the skills necessary to build and manage robust server-side applications.

Great Learning React JS Certification   March 2023

- Completed a certification program where I mastered React, a leading JavaScript library, and gained proficiency in creating dynamic, interactive, and responsive web applications through an intensive curriculum and practical projects.

Website Designing Certification from Riss Technologies   May 2016

- Learned essential skills for crafting functional and user-friendly websites through expert-led instruction in design principles, typography, responsive layouts, and user experience, complemented by hands-on workshops and real-world projects.
